REPORT OF HEALTH OFFICER

Hanover, Maine, Feb. 13, 1943.

One case of scarlet fever was reported in October, 1942. The family was quarantined, and later house was fumigated.

Respectfully submitted,

G. C. BARKER,

Health Officer.

REPORT OF PUBLIC HEALTH NURSE 1942

For the public health nursing program in Hanover, instructive nursing visits were made to the expectant mothers, infants, and preschool children.

Due to the closing of the local school, pupils are attending school at Rumford Point, and are under the supervision of the Rumford school system.

Immunization for diphtheria and smallpox were given by the district health officer.

A child health welfare conference was held at Rumford Point. Several families attended. Transportation was furnished by a local farm bureau member.

Excellent cooperation has been received from the town officials and local health officer.

MRS. RUTH HOPKINS,

Public Health Nurse.

REPORT OF SUPERINTENDENT OF SCHOOLS

1942

To the School Board and Citizens of Hanover.

Ladies and Gentlemen:

The school census taken April 1, 1942, showed a total number of forty-one persons between the ages of five and twenty-one, which is five less than the number in 1942. Of this number seventeen were boys and twenty-four, girls.

The transportation from Hanover to the Rumford Point School has been carried out very satisfactorily by Mr. Ralph Richardson. I think Mr. Richardson deserves a great deal of credit for the care and efficiency with which he has performed this work.

Whether or not the town will see fit at its annual meeting to continue the plan of educating its children at the Kimball School will be a matter for the voters to decide. Personally, I would recommend that the plan be continued. I find that the pupils appreciate the added privileges which they are enjoying, and that the parents of the children feel very well satisfied. There are several advantages in this plan. First, the children have the opportunity of being in larger classes with but two or three grades in the room; second, their play hours have been carefully supervised; third, hot lunches are served at noon. They have also had the privilege of studying under a music supervisor.

REPORT OF SUPERINTENDENT OF SCHOOLS

1943-44

To the School Board and Citizens of Hanover.
Ladies and Gentlemen:

The school census taken April 1, 1943, showed a total number of forty-four persons between the ages of five and twenty-one, which is three more than the number in 1942. Of this number, eighteen were boys and twenty-six were girls.

We wish to call attention to the report of last year. Conditions are exactly the same as at that time, and we are of the opinion that the plan now in operation should be continued. We feel strongly that the children of Hanover are now having the privilege of attending one of the best grade schools to be found anywhere. We also feel that the children themselves appreciate their privileges.

We are giving in this report the names of the pupils and the attendance for the fall term of 1943, and the month of January in 1944.
